## OVERVIEW

We have been commanded to perform vicarious ordinances for all the billions who have lived and died before us. Thus far the effort to do this has been commendable; these ordinances have been performed for over fifty million people. But the work that remains to be done is a great challenge.

To accomplish this enormous task, the work has been divided into four basic assignments:

Steps 1, 2, and 3 are the responsibilities of each individual for himself and his family. Step 4 is the joint responsibility of all Church members for the benefit of all the family of God.
